British Insurers**

**Others to be confirmed**

# FRIAR 2008

This important international two day Conference will provide a unique opportunity for Practitioners and Researchers and all others interested in flooding to meet in order to exchange experiences and ideas.

The conference will include a wide range of presentations from leading academics, practitioners and researchers on the latest advances in flooding.

## KEY THEMES

- Risk Management in Relation to Flood Events and Climate Change
- Pre-event Planning and Business Continuity
- Management of Major Events
- Post Damage Restoration and Recovery
- Victims of Flooding
- International and National Government Policy

If you wish to attend this conference please visit the flood repair website [www.floodrepair.net](http://www.floodrepair.net) for further information, including concessionary rates available

There will be space for organisations to display products, services and literature related to the theme of the conference – please contact us for details via the website

**Organised by:** University of Wolverhampton, UK and Wessex Institute of Technology, UK
